It's the perfect location to celebrate life's happy moments. Fifty-five storeys above the bustle of central Bangkok, Red Sky at the Centara Grand at CentralWorld, one of the city's top dining destinations, serves up jaw-dropping panoramic vistas, an inspired menu, and a remarkable well-balanced wine list.

At the entrance, an eight-meter-high glass wine cellar stands guard at the entrance, holding over 2,000 bottles that straddle both old and new worlds. Outside, the glass-wrapped alfresco bar and bistro showcases nighttime Bangkok as far as the eye can see. At one end is a long bar dominated by an imposing glowing arch that frames the city beyond.

The menu is imaginative and excites the senses with an outstanding recipe of tastes and textures. Chef Hugo Coudurier's Signature additions are a combination of both classical and contemporary bistro dishes that are designed to wow the senses. Start of your gastronomic experience with the sublime moreish Black Truffle Artichoke Soup accompanied by a delightful toasted mushroom brioche. Then the delicate flavours that come together perfectly in his elegant Golden Chanterelle Risotto with Pata Negra ham, or the Nova Scotia Lobster "Vol Au Vent", which offers a burst of light creaminess across the palate. Other standouts include French Suckling Lozere Lamb Rack with Pommes Puree and Morel Jus and a personal favourite, the Poached Bresse "Poussin" baby chicken with Truffle & Foie gras Fragrant Basmati Rice and a magnificent velvety Albufera sauce.

Showcasing his classical culinary upbringing is a fork tender Wagyu Beef Tenderloin "Rossini" with Foie Gras, Black Truffle, Wild Mushrooms and Madeira sauce, and another timeless dish, Warm Old-fashioned Apple Tart and Vanilla Bourbon Ice Cream.

So what better place than Red Sky to impress an out-of-town guest, celebrate the closure of a business deal, or even pop the question? With its spectacular setting, outstanding food, and jazzy music it is the perfect formula for a great night out.
