CENTARA GRAND VILLAS NUSA DUA

A secluded retreat with 14 luxury villas tucked into a garden setting in Nusa Dua, on the southern tip of Bali, perfect for couples desiring privacy, for families wanting to spend a memorable holiday together, and for groups of friends who require luxury space. Each villa is designed in Peranakan style, an evocative blending of Chinese and Indonesian cultures, and each has its own private swimming pool. Despite its seclusion, the resort is within walking distance of Bali Nusa Dua Convention Centre, while the island’s airport is a 15-minute drive away.
LIVE IN STYLE

The large and airy villas each feature marble floors, the rich tones of teak and rosewood, and the soft touch of natural fabrics. There is the choice of one, two and three bedrooms, with each villa featuring a large living area and bathrooms with free-standing tub and separate shower. The outdoor pool is flanked by a garden with a sundek and patio that provide plenty of space for all-day living and a romantic dinner or convivial gathering in the evening.

All villas are Club class, which include access to the Club Lounge with its complimentary servings, and there is also 24-hour butler service to ensure each guest will enjoy life at Nusa Dua to the full.
SELECT YOUR STYLE

There is an exciting choice for those who love good food. The Long Table opens throughout the day and serves classic dishes and delicacies from Western and Asian cuisines, together with different evening themes created by our chef. The restaurant has an open kitchen so guests can watch their meal being prepared. Next to the restaurant is 8 Degrees, designed in a style that takes its inspiration from British colonial influences, and serving cocktails together with a large selection of fine wines. Ru Yi is for fine Chinese dining, preparing recipes from mainland China and Hong Kong, along with a selection of live seafood, served in an opulent indoor environment or by the terrace with the resort’s main pool as a backdrop.
ANCIENT HEALING

Traditional Thai and Balinese healing therapies that use local ingredients have inspired SPA Cenvaree’s extensive menu of treatments and spa journeys. The Peranakan Heritage is the signature treatment, and it utilises massage, bathing, and aromatic soft scrub techniques along with herbal recipes passed down through the generations to create a balance of body, mind and soul. The spa also offers the Kneipp footbath therapy, as a way of boosting the body’s immune system. Treatment suites are available for singles and couples. Adjacent to SPA Cenvaree is our fitness centre, open 24 hours a day.
A quick shuttle ride will take you to the beach, and here the resort has its own beach club, Taman Bhagawan, a collection of traditional Javanese timber buildings set in gardens fragrant with frangipani. Drinks and meals are served here, allowing you to spend a lazy day by the sea. Bali National Golf Club is nearby, an 18-hole course with the majestic backdrop of Gunung Agung and the ocean. Excursions can be arranged by your villa host to famous sites such as Uluwatu Temple, the oldest temple in Bali and built upon a black coral reef that becomes an island during high tide, or to Ubud, the artists’ village, where in addition to enjoy the bohemian atmosphere and buy a quality memento of your time on the island.
Bali is one of the world’s greatest island destinations. A luxurious villa with its own pool blended with Centara’s distinctive style of service will provide you with an exclusive retreat, whether you are staying with your loved ones, enjoying a family holiday or travelling with friends.
